CORE TRAINING
Preparing for the MRCS examination: a simple guide

A monthly supplement, Core Training for Doctors, contains practical articles which focus as much on doing the job of being a doctor as they do on the clinical knowledge that every doctor requires.

British Journal of Hospital Medicine, the leading multi-specialty review journal, has been educating hospital doctors for 45 years

The journal publishes authoritative, topical and in-depth clinical reviews that are written by experts and peer-reviewed by some of the world's most renowned medical authorities and specialists.

BJHM covers all specialties in hospital medicine, making it a must-read publication for all doctors who want to ensure that their practice is evidence-based and up-to-date with all the latest clinical developments.

Regular features in the journal include:

- **Editorials**
- **Clinical Reviews**
- **Symposia**
- **Education and Training Update**
- **Case Reports**

In addition, each issue of BJHM contains a pull-out supplement for doctors in core training. Series within the section include: clinical skills for postgraduate examinations, what you need to know about, what they don't teach you at medical school, tips from the shop floor and medical dilemmas.
